Executive Summary

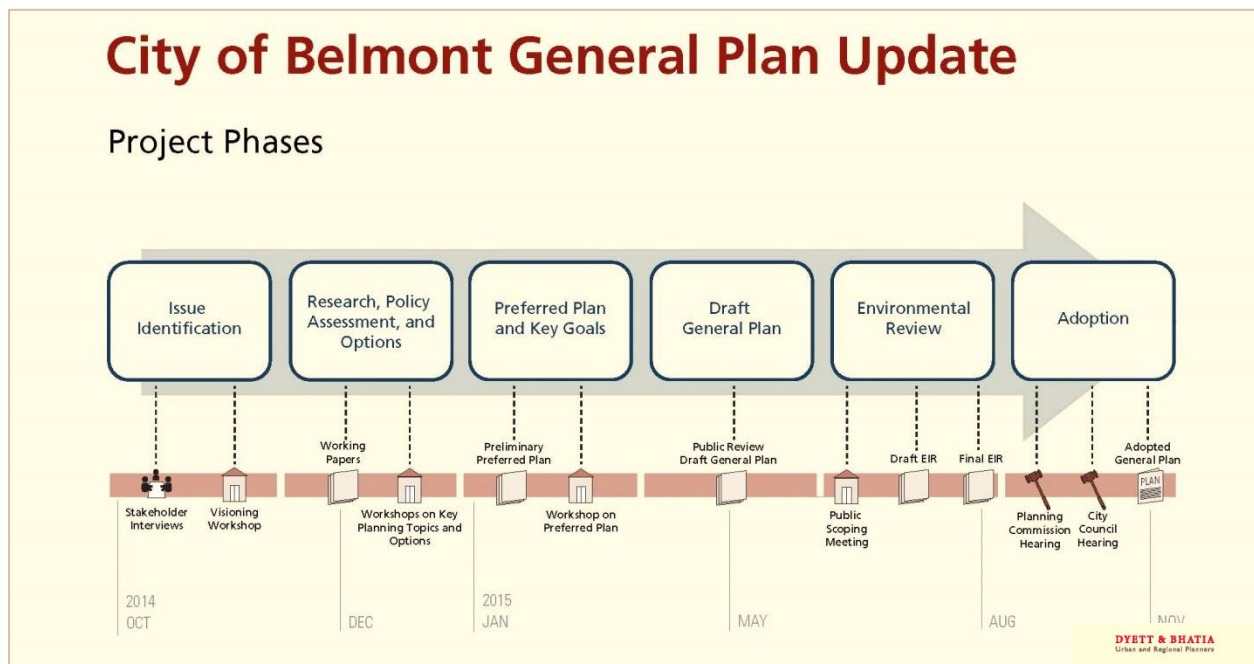

2035 General Plan Update

The City of Belmont is embarking on an exciting new project: the update of our General Plan. The existing General Plan dates back to 1982, and new opportunities, challenges, and approaches have emerged in recent years. The City initiated the multi-year process of updating the General Plan in 2014, beginning what will be a unique and important opportunity for residents to share their ideas about their community's future.

The General Plan is the City's primary guide for development, housing, transportation, environmental quality, public services, and parks and open spaces. The General Plan Update is a collaborative effort between the City and its residents to create a vision and a blueprint for development through 2035. Residents have the opportunity to get involved at all stages of the planning process, from the initial visioning and exploration of plan alternatives to the selection of the Preferred Plan and review of its accompanying Environmental Impact Report.

The General Plan update process is anticipated to be complete by late 2015. At that time, the City will have comprehensively updated its General Plan and prepared an accompanying Environmental Impact Report. A 2035 General Plan Website is being completed and should be available in the next week or so.

The diagram below illustrates the phases of the planning process and shows all of the opportunities for public participation throughout. Click on the picture to see a larger diagram (PDF)

Community Events

Carlmont High School "Friday Night Lights" tonight against El Camino. Come out to watch and cheer for our local athletes, listen to the Concert Band and beat of the Drumline.

Belmont Fire Personnel Will Honor Fallen Firefighters

This weekend Belmont Fire personnel will be joining other fire departments across the country in paying tribute to fallen fighters as part of National Fallen Firefighter Memorial Weekend. Every October, the National Fallen Firefighters Foundation sponsors the official national tribute to all firefighters who died in the line of duty over the past year and in previous years. In 2013 alone ninety-eight firefighters lost their lives in the United States. As part of this weekend's recognition, all fire stations will lower their flags to half-staff on Sunday.

Save the Music

The *Save the Music* Festival featured 4 stages, with nearly 800 performers in 30 performing groups. The Festival, as usual, drew about 5,000 total attendees, who enjoyed performances by school singers, dancers, and instrumental musicians, Jazz bands from Carlmont High School, the College of San Mateo, and several community and professional groups. Also featured were bands who appeared on KFOG's Local Scene, and a large variety of youth and adult singing, dancing, and theater groups from the community. The Carlmont High School Drum Line and the Battle of the Bands, between the Stanford and UC Davis Marching Bands thrilled the audience throughout the Festival.

Attendees enjoyed all of this entertainment, great food and drink from local restaurants, including Mistral, The Counter, Come Buy Boba, and Devil's Canyon Brewery, as well as gourmet food, drink, and dessert trucks, a huge range of activities for kids young and old, and absolutely perfect weather for a day in Twin Pines Park.

This year generated the greatest day-of-event revenue in our history. As always, all proceeds from the

Festival go directly to School-Force and the Belmont-Redwood Shores School District, to keep Elementary Instrumental Music and other key programs strong in our schools.

The ***Save the Music*** Festival team, and School-Force, the Education Foundation for the Belmont-Redwood Shores School District, are pleased and grateful for the strong partnership provided by the City of Belmont. Twin Pines Park is the perfect setting for the ***Save the Music*** Festival, and Belmont's City Council, City Manager, Parks & Recreation, Department of Public Works, Police, and Fire Departments all contribute significantly to the quality, comfort, and safety of the event.

As always, the Festival could not take place without the substantial number of volunteers who spend a couple of hours helping set up or clean up the Festival Saturday and Sunday evenings, or helping with operations during the Festival itself. The ***Save the Music*** Festival team wants to give special recognition to the students of Carlmont High School, who represent half of the performers and more than half of the volunteers who make our Festival go.

We are already looking forward to the 13th annual ***Save the Music*** Festival, to be held on Sunday, October 4, 2015. We invite everyone to mark their calendars.

ENGINEERING

RALSTON AVENUE SANITARY SEWER REPLACEMENT PROJECT

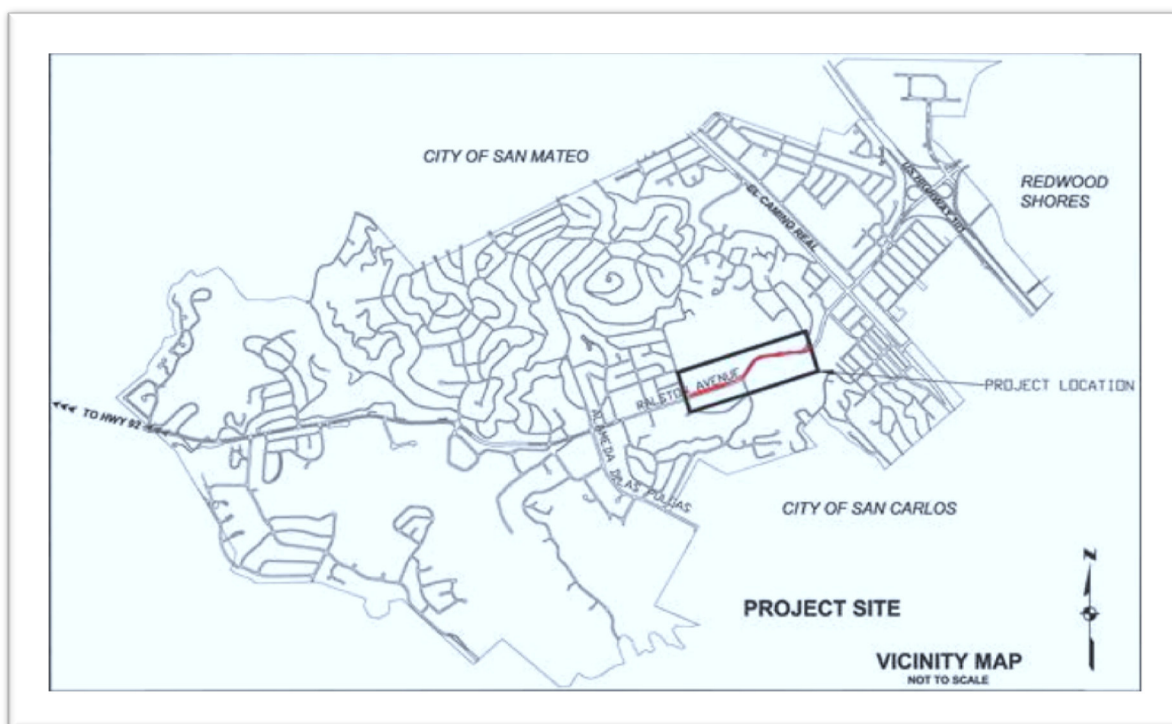

The construction of the Ralston Sewer Rehabilitation Project is anticipated to begin in mid-October. The project limits are Ralston Avenue between Notre Dame Avenue and South Road. The project involves upsizing the existing 15" and 18" sewer mains to a 24" diameter pipe, reconnection of service lateral pipes, various spot repairs and manhole rehabilitation. The contractor will be using trenchless technology by using directional boring as the primary method of construction, but even with this method there needs to be a number of open trench excavations.

Directional drilling is a steerable [trenchless](#) method of installing underground pipes in a shallow arc along a prescribed bore path by using a surface-launched drilling rig, with minimal impact on the surrounding area.

Directional Boring Machine

During the course of construction, there will be heavy equipment staging along Ralston Avenue. The center Lane or travel lanes will be reduced to one lane in each direction within this project location and there will be an overall impact on traffic circulation in the area. Commuters should anticipate some traffic delays during the construction hours of 9:00am to 3:00pm. The project is anticipated to be complete by mid-December. For additional information, please contact Public Works at 650-595-7425 or visit the [project webpage](#).

**2015 PAVEMENT RECONSTRUCTION PROJECT**

The City of Belmont along with its design consultant, Bellecci & Associates, invite you to attend an "Open House" community meeting on:

**Wednesday October 15th from 6:30p.m to 8:00p.m.
Twin Pines Senior & Community Center
20 Twin Pines Lane, Belmont, CA 94002**

THE CITY OF BELMONT plans to rehabilitate the following streets:

- Cipriani Boulevard from Alameda De Las Pulgas to Newlands Avenue (Site #1)
- Notre Dame Avenue (upper) from Alameda De Las Pulgas to Miller Avenue (Site #2)
- Notre Dame Avenue (Lower) from Ralston Avenue to Arbor Avenue (Site #3)

****Street reconstruction limits are shown on the back of this notice**

The design of this project includes choosing methods of pavement rehabilitation and/or reconstruction that minimize inconvenience to the neighborhood, extend the effectiveness of the pavement's life and remain within the program budget.

The street design will include repairs or replacement of the underlying road followed by installation of a new asphalt concrete pavement over the road surface. In addition, where applicable, sections of the sidewalk, Americans with Disabilities Act (ADA) compliant ramps, and curb & gutter will be included for construction.

PROPOSED PROJECT ELEMENTS

- Relocation of bus stop and loss of 1 parking space on the 2200 block of Notre Dame Avenue
- Installation of ADA compliant curb ramps
- Installation of new cross walks and relocation of some existing cross walks
- Conforms to existing driveways

The proposed plans for this project will be available for review and comment during the meeting. Residents who live on street sections scheduled for rehabilitation are invited to provide input relevant to the design of the rehabilitation.

PROJECT SCHEDULE

The City expects to be under construction in **Summer of 2015**.

**** The Contractor will be required to notify residents of its anticipated schedule two weeks prior to start of construction.**

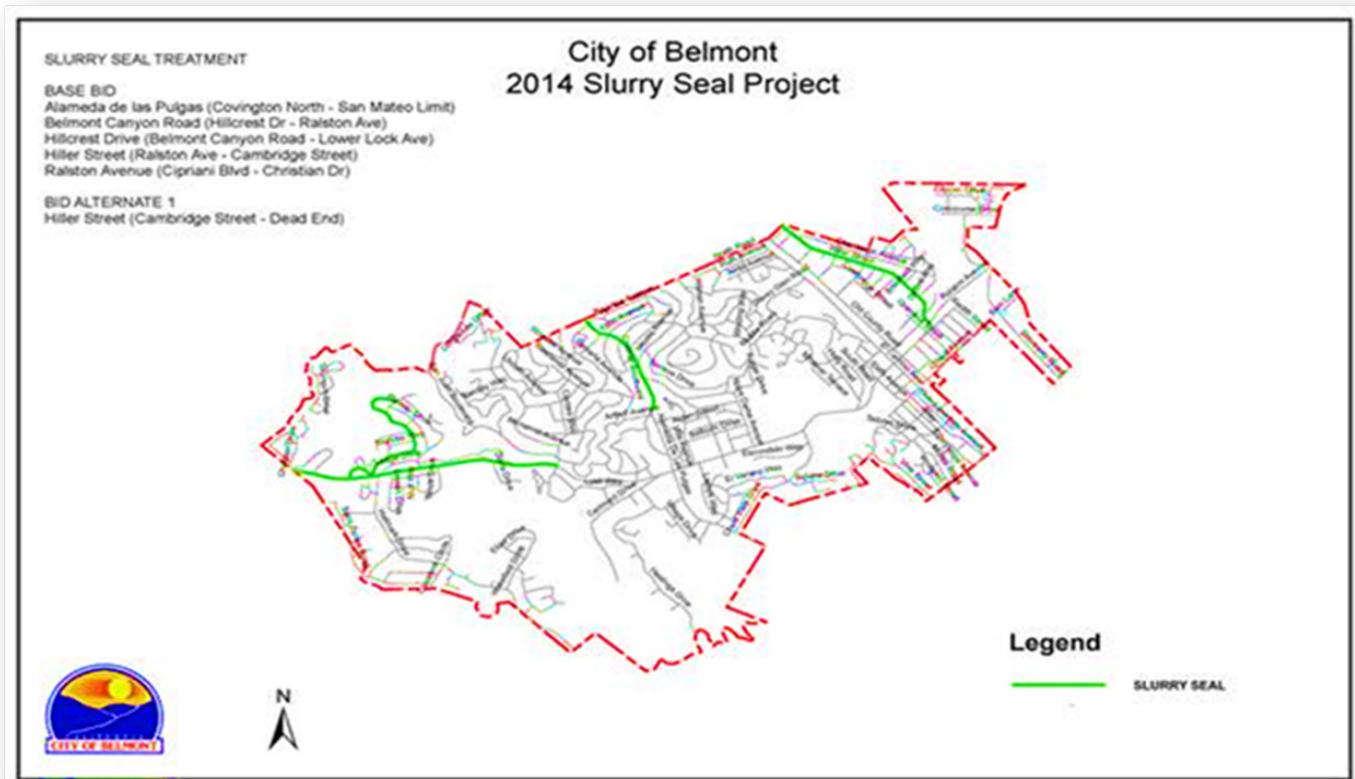

Please address questions and/or provide comments to:

Update- 2014 Summer Pavement Maintenance Slurry Seal Project

Construction for the 2014 [Slurry Seal Project](#) is in progress.

Status	Location
Slurry is scheduled for October 16 th (weather permitting)	Hiller Street (Between Cambridge St. to north end)
Restriping is scheduled for the week of October 20 th (weather permitting)	Hiller Street (Between Cambridge St. to north end)

**Storm Division**

- Swept 99 miles of curb line resulting in the acquisition of 8.63 tons of debris
- Cleaned 12 Storm Drain Inlets, collecting 1.5 ton of debris
- Replaced 5 storm drain grates with the "bike safe" variety
- Cleaned and inspected 2 storm pump stations
- Removed 1 pump from Ralston Storm Pump Station. Performed routine maintenance ensuring that it is prepared for the upcoming rainy season
- Cleaned check valves at Ralston Storm Pump Station
- Inspected the Water Dog Lake area, dam and V-ditch

Sewer Division

- Inspected and cleaned 11 sewer pump stations
- The service truck (205) responded to 13 service calls
- Jetted (cleaned) 3,254 feet of sewer main
- Daily cleaning of the flushable wipes trap at the Ralston Ranch Pump Station
- Used Vactor truck to vacuum debris from Ralston Ranch wet well
- Videod 4,909.6 feet of sewer lines
- Video inspected 1 lateral connection to main
- Video inspected 2 private sewer laterals
- Inspected 11 manholes
- Staff is troubleshooting a pump tripping issue with pump controller at the baseball field pump station

Traffic Operations

- Weekly visual inspections for preventative maintenance of intersections
- Visual inspection of lighted crosswalks
- Fabricated 15 signs
- Replaced 5 signs
- Weeded, swept and picked up trash in right-of-way on the 1500 block of southbound El Camino Real
- Assisted Streets Division paving 17.5 tons
- Ralston Banners: 2 down & 2 up
- Responded to traffic signal malfunction at Ralston and Hallmark
- Responded to traffic signal malfunction at Ralston and Davis
- Filled numerous potholes on Middle Road
- Evaluate potential options for Emergency Response Trailer by visiting Union Sanitary District
- Provide support to the contracted Traffic Engineer in his attempt to provide a coordinated signal plan to optimize peak flows on Ralston Avenue
- Repaired 2 streetlights
- Repaired traffic signal on Ralston at Cipriani

Streets Division

- Marked out 8 locations for Underground Service Alerts
- Saw cut 2 locations in front of 2703 Wakefield in preparation for paving
- Saw cut 2 locations in front of 3300 Plateau in preparation for paving
- Saw cut 1 location in front of 3326 Plateau in preparation for paving
- Picked up 60 barricades and 80 cones used for the "Save the Music" festival from City Hall
- Dug out 6 tons of alligated asphalt on the 1044 Tahoe Drive, compacted the base, oiled the edges, and put down 6 tons of hot asphalt in 2 lifts
- Dug out 9.75 tons of alligated asphalt in front of 2703 Wakefield Drive, compacted the base, oiled the edges, and put down 10.5 tons of hot asphalt in 2 lifts
- Dug out 1 ton of alligated asphalt in front of 3300 Plateau, compacted the base, oiled the edges, and put down 1.25 tons of hot asphalt in 2 lifts

Thermoplastic Striping Slated for Week of October 20th.

The City's contractor, Bayside Stripe & Seal company will be conducting thermoplastic striping at 51 locations throughout the City. This project is scheduled for Monday October 20th and Tuesday October 21st, and will include the restriping of crosswalks, turn arrows, double yellows and STOP legends. Thermoplastic is very durable, long wearing and reflective and will outlast typical traffic grade paint, making it a very cost effective traffic delineation solution. You may experience short term delays due to temporary traffic detours around these work areas. For the list of locations please go to the Public Works webpage [here](#).

Did you know?

**The Public Works Maintenance
Department sweeps between 300–500
curb miles a month.**

**Ways you can help~**

- Move your car off the street the night before your scheduled sweeping day.
- Do not blow yard debris into gutter or roadway.
- Do not sweep leaves into piles taller than one-foot.
- Trim trees and vegetation back behind the curb with 14 feet of vertical clearance.
- Place branches in your compost bin.
- Keep gutters clear of dirt and debris.

**Cigarette Butts are Litter Too!**

This year's California Coastal Cleanup Day-Belmont Creeks to bay yielded 1,338 cigarette butts and filters found by volunteers in and around Belmont waterways. Did you know that flicking that cigarette butt on the ground is littering? When they are discarded on the ground, wind and rain carry them to the storm drains, where they leach these harmful chemicals into the water. Ultimately, the butts and the chemicals they contain end up in the bay, damaging wildlife and living organisms that they come in contact with. They also add to water pollution!

There are many ways to dispose of cigarettes without flicking them on the ground. Pocket or personal ashtrays are a great alternative instead of littering, and a pocket ashtray will easily fit in your pocket or purse.

Don't be seen as a litter bug, be seen keeping it clean!

No If's, And's
or Butts!

Did you know?

Cigarette filters never fully biodegrade.

Cigarette butts contain hazardous chemicals and toxins.

Cigarette butts are the single most littered item in America.

Always dispose of cigarette butts responsibly.

Don't Leave
YOUR
Butts 
Behind!

**Coats for Kids Program Scheduled for Mid-October**

Recology San Mateo County is once again offering the Coats for Kids Program, which will provide gently used and new coats for families in need. Recology has been providing the Coats for Kids Program for many years in the communities they service, and is a great program helping those individuals and families in need. You can donate to this year's Coats for Kids Program by their curbside collection service or drop them off at various locations.

October 13th - 17th Curbside Collection

Recology will collect coats curbside from residential customers on their collection day.

October 13th - 24th Drop Off Locations

Collection containers labeled "Coats for Kids" will be placed at the following locations where residents can drop off coats. The drop off locations can be used by anyone interested in making a donation.

Transportation Authority to Hold Public Meetings on Strategic Plan

The San Mateo County Transportation Authority (TA) is in the process of updating its five-year strategic plan and is holding public meetings to gather feedback on the policy document.

The TA is the agency responsible for administering Measure A, the ½ sales tax initiative that is devoted to transportation and infrastructure improvement projects in San Mateo County.

Through the adoption of its Strategic Plan, the TA will outline the vision, goals, and implementation procedures for Measure A funds over the next five years. The Strategic Plan development process offers the TA and the community a chance to reflect on the current state of Measure A funding and project delivery while preparing for the future transportation needs in San Mateo County. A draft copy of the document will be available online at www.smcta.com/strategicplan on Friday.

San Mateo County residents are invited to weigh in on the Strategic Plan at the following meetings:

Wednesday, Oct. 15 6:30 p.m. - 7:30 p.m.

Arrillaga Family Recreation Center
Oak Room
700 Alma Street
Menlo Park, CA 94025

Tuesday, Oct. 21, 6 p.m. - 7 p.m.

Municipal Services Building
Council Chambers
33 Arroyo Drive
South San Francisco, CA 94080

Tuesday, Oct. 28, 2014 7 p.m. - 8 p.m.

Pacifica Community Center
Card Room
540 Crespi Drive
Pacifica, CA 94044

Thursday, Oct. 30, 6 p.m. - 7 p.m.

SamTrans Administrative Office
2nd Floor Auditorium
1250 San Carlos Avenue
San Carlos, CA 94070

Following these public meetings, staff will revise the Strategic Plan based on the feedback it has received. A final version of the plan will be considered for approval at the TA Board of Directors meeting on December 4.

Construction, Installation and Maintenance: Oct. 11 to Oct. 17, 2014

Construction

There are no major construction projects at this time.

Installation

Communications Based Overlay Signal System (CBOSS) Positive Train Control (PTC) Project

The CBOSS PTC Project is an advanced signal system that will equip the corridor and trains with federally-mandated safety technology and will increase system capacity to help accommodate future ridership demand.

The project will monitor and, if necessary, control train movement in the event of human error. This will increase safety by:

- Eliminating the risk of train-to-train collisions.
- Reducing risk of potential derailments by enforcing speed limits.
- Providing additional safety for railroad workers on the tracks.
- Improving grade crossing performance to reduce gate downtime and improve local traffic circulation.

The CBOSS PTC Project is also a key component of the Caltrain Modernization Program, which will electrify the Caltrain Corridor by 2019. An electrified Caltrain will be cleaner and quieter and will upgrade the system to provide faster and/or more frequent service to more stations and riders.

To implement the project, Caltrain will be identifying utilities, digging a small trench and/or boring close to the tracks to install fiber optic cable. In order to maintain daytime train service, Caltrain will be performing some of this work at night.

Millbrae and Burlingame

Day work will occur Oct. 13 – Oct. 17 from 7 a.m. to 5 p.m. to identify utility lines and/or install conduit for fiber optic cable. Crews will work as quietly as possible.

Night work will also occur Oct. 12 – Oct. 16 from 8 p.m. to 6 a.m. Crews will be boring and/or digging a small trench to install conduit for fiber optic cable. Lights will be used in the area to help provide visibility. Neighbors may experience some minor installation noise during this time. Crews will work as quietly as possible.

San Mateo, Belmont, San Carlos and Redwood City (north of the Dumbarton Spur)

Night work will occur Oct. 12 – Oct. 16 from 8 p.m. to 6 a.m. Crews will be boring and/or digging a small trench to install conduit for fiber optic cable. Lights will be used in the area to help provide visibility. Neighbors may experience some minor installation noise during this time. Crews will work as quietly as possible.

Unincorporated San Mateo County

Day work will occur Oct. 13 – Oct. 17 from 7 a.m. to 5 p.m. Crews will continue installation of a base station. Crews will work as quietly as possible.

For more information, please call the dedicated outreach line at 650.508.6499; visit the website at www.caltrain.com/CBOSSPTC or email caltrainptc@samtrans.com.

Maintenance

Caltrain will perform routine maintenance at several locations next week. To avoid disruptions to service, the work will mainly take place Saturday through Friday from 8 p.m. to 6 a.m. For more information about this type of work, click [here](#), or call 650.508.7726.

San Francisco

Monday, Oct. 13, to Thursday, Oct. 16, crews will weld and grind rail near the Bayshore station. The welding crew uses air compressors, gas-powered generators, small power tools, electric-arc welders and propane heaters. Neighbors also may hear a grinder, which is used to prepare the rail surface before it is welded and to smooth the completed welds. Crews will work as quietly as possible.

San Francisco to San Jose

Saturday, Oct. 11, to Friday, Oct. 17, crews will pressure wash and perform janitorial work at Caltrain stations between the San Francisco and Tamien stations.

Atherton to Palo Alto

Sunday, Oct. 12, to Thursday, Oct. 16, crews will replace wooden railroad ties between the Atherton and Palo Alto stations, including the Encinal Avenue track area in Menlo Park. Caltrain uses several different on-track, self-propelled machines to replace cross ties, and neighbors may experience construction noise during this time. Crews will work as quietly as possible.

Palo Alto to Santa Clara

Sunday, Oct. 12, crews will resurface rail near between the California Avenue and Santa Clara stations. Resurfacing corrects the alignment of uneven rails to make them smooth, minimizing the jerks and bumps experienced by passengers and reducing the mechanical strain on the rails. Neighbors may experience construction noise during this time. Crews will work as quietly as possible.

Mountain View to Sunnyvale

Monday, Oct. 13, to Friday, Oct. 17, crews will replace railroad ties between the San Antonio and Sunnyvale stations. Neighbors may experience construction noise during this time. Crews will work as quietly as possible.

Santa Clara

Monday, Oct. 13, to Thursday, Oct. 16, crews will resurface rail near the Santa Clara station. Neighbors may experience construction noise during this time. Crews will work as quietly as possible.

San Jose

Sunday, Oct. 12, crews will weld and grind rail at the Diridon station. Crews will work as quietly as possible.
